Questions? Call their office at (402) 643-2809

Nebraska Department of Labor (DOL) will provide services to companies/employees who are experiencing a closure or layoff. The DOL has a program whereby an employer can apply for a Short-Term Compensation (STC) for their employees. This allows the employees to work when needed, but also gives the employees partial unemployment. During STC, the employer agrees to continue providing benefits to the employees. Visit www.DOL.Nebraska.gov/STC for additional information.

The local Walmart in Seward is hiring temporary maintenance and stocking positions to assist the people in the community that are going to be let go or laid off due to the current situation. Walmart understands and is fine with temporary employees leaving when their small business re-opens. Please visit: <https://www.walmart.com/store/885/seward-ne/details> to apply.
